Demo: github.com/ngocdinh2k1/JavaCore.git

DesStore e-commerce website (08/2021 > 01/2022)

Spring + MySQL

Website sells shoes online by Spring boot.

Integrate Social Login with OAuth2

Demo: ngocdinh2k1.github.io/Front-end-Webshoes/page/home.html

Shoe e-commerce website (3/2023 > Present)

Spring boot + MySQL + VueJS

The graduation project uses VueS + Spring Boot library.

VueJS builds basic easy-to-use layouts according to SEO: (VueJS3, Vuex, VueChart,..)

Spring boot builds REST APIs: CRUD, Websocket, Security, Send Mail, Login with google.

Function:

- User: View products, buy and sell, register an account, chat with admin.
- Admin: Manage sales page, chat with user, send email with invoice attached, ..
